

SAKRIT KAFLE

B.Tech CSE 3rd YEAR STUDENT · Vellore Institute of Technology (VIT) Vellore, Tamil Nadu, India

PERSONAL INFORMATION

Phone No. : +977-9861054127/+91-8610608853

EMAIL: sakrit.kafle2024@vitstudent.ac.in

Date Of Birth: 18 April 2004

Current Address: VIT Vellore, Tamil Nadu

Permanent Address: Madhyapur Thimi-3, Bhaktapur, Nepal

Personal Website: sakritkafle.netlify.app

Github: github.com/sakrit204-byte

INTERNSHIP OBJECTIVE

As an academic requirement for a B.Tech Computer Science and Engineering degree at VIT Vellore, I am seeking internship software or web development, run, maintenance and system operation of any IT related job. As a trainee of shipping live client websites and building full-stack products I am interested to help in that area as well. I am interested in solving any real-world problem within a creative engineering team.

EDUCATION

B.Tech — Computer Science and Engineering (3rd Year)

Vellore Institute of Technology (VIT), Vellore, India

2024 – present | Vellore, Tamil Nadu

Cambridge A Level — Physics, Mathematics, Computer Science

Little Angels College, Kathmandu

2021 – 2023 | Kathmandu, Nepal

Secondary Education Examination (SEE)

Panini School, Gothatar, Pepsicola

2020 | Kathmandu, Nepal

WORK EXPERIENCE

WordPress Developer — YouFleetElite

Online Trainee, Remote | Australia

- ▶ Developed and maintained a production WordPress site for an Australian fleet management company.
- ▶ Customised themes, integrated plugins, and improved page load speed and mobile responsiveness.
- ▶ Delivered features across time zones, ensuring zero downtime in live deployment.

PROJECTS & DEVELOPMENT

CRM Management System

2026 | Independent Project

- ▶ Built a complete CRM from scratch: contacts, deal pipelines, activity logs, and JWT-based authentication.
- ▶ Designed REST APIs in Node/Express with relational MySQL schema and role-based access control.

- ▶ Delivered end-to-end independently — scoped, architected, built, and shipped without guided labs.

Sports Education Web Platform

2026 | Independent Project

- ▶ Built a responsive multi-page sports education site using HTML, CSS, and React JS.
- ▶ Implemented login, quiz assessments, and certificate generation using local storage and cookies.
- ▶ Applied Flexbox & CSS Grid for strong DOM manipulation and cross-device design.

TECHNICAL SKILLS

Languages	JavaScript, Python, HTML5, CSS3, C
Frontend	React.js, Flexbox, Grid, DOM Manipulation
Backend	Node.js, Express, REST APIs
Databases	MySQL, PostgreSQL, Supabase, Prisma
Tools	WordPress, Git, Postman, Figma
IoT	Arduino-based weather monitoring & hazardous gas detection
Research	Case study: Computer Architecture — Design & Performance Analysis
Maths	Discrete Mathematics, Linear Algebra, Algorithms, Data Structures

SOFT SKILLS & EXTRACURRICULARS

- ▶ Event Management: Organised and coordinated multiple events at Gravitas — VIT's Annual Tech Fest.
- ▶ Communication: Client communication across time zones; project presentations at VIT.
- ▶ Community: Environmental health & youth mobilisation campaigns — LOFA, LA College, Kathmandu.
- ▶ Self-Learning: Independently mastered Prisma, Supabase, and PostgreSQL outside the curriculum.

AREAS OF INTEREST

Web Development · Databases · Internet of Things (IoT) · Cloud Deployment
